

## MEETING PROPOSAL

To : E&A President, Alain AMADE  
TC President, Candido MOZ  
MWWC President, Dimos ALEXOPOULOS

Dear friends,

Following the Mediterranean Games where we saw the cancellation of Tricks and Boat Wakeboard events, plus the fact that the Olympic decision is not to include Cable Wakeboard in the next 2 Olympics (2020 & 2024), I think it is time to have a brainstorming meeting about which direction E&A should follow for our Development and what should be our position on very important points before the Beach Games of Pescara (2015) and the Mediterranean Games of Tarragona (2017),

for example:

- the proposed disciplines for the Pescara Beach Games and Tarragona Mediterranean Games
- the competition rules for those 2 Games
- the conditions under which disciplines will take place
- Technical Delegate first visit to the host towns
- E&A influence on National Olympic Committees concerned
- E&A influence and help on National Federations concerned
- 2 / 4 / 8 years strategy in Mediterranean area.

I propose that we organise this meeting on Monday morning September 9th, for 3 hours, right after the European Championships in Ioannina.

I think our conclusions will have influence on the policies to be followed by :

- Technical Committee
- Development Committee
- Mediterranean Waterski and Wakeboard Confederation.

Thank you for your comments and thoughts.

Your answer would be appreciated before July 15th, so, if necessary, we can adapt our time table and book the appropriate flights to and from Ioannina.

Best regards.

Jean-Michel CAU
