3. Agenda

An agenda has not been set for this meeting.

4. World Championship

We still need a Chief Judge for the World Championships. We will discuss with current candidates before the Seminar to try to find the right person. The World Council meeting in Sacramento will be Tuesday or Wednesday. Jennifer and Belinda will be in the Classification Team for the Worlds, but Bethan is not able to go.

5. Seminar

There will be one Disabled related session on the Saturday. Christophe and Paul will do a CAS presentation. Paul will show a Disabled training video with tricks. Christophe will make a PowerPoint presentation to present the differences from Waterski homologation. Sid and Marie Anne will bring the CAS and Paul will bring a battery. Paul and Dany will present the EMS and Scoring system.

6. Rules

Ivar will send the rules to all the members of the Council. We discussed the rules for BPMS for all speeds and rope lengths at title events and we agreed on the boat timing and reride situations in jump. The new ramp setting chart in the Waterski rules doesn't show 1.25m anymore so we will put the old chart in our rules.

EyeTrick is not ready for Disabled yet. It will not be used for Disabled competitions this year. We will ask Donal if he can put in the Disabled tricks for the future.
