

## 11.02 Report African Confederation

### African Report – 2023 Q3-Q4

The last 6 months have been our winter months and not much activity can be reported on. In preparation for 2024, South Africa has purchased a mobile Sure Path system to ensure our competitions are RL capability.

Namibia is negotiating for better water level control in their main dam for skiin' activities to resume.

There are official seminars planned in South Africa and Namibia in the next few months. Morocco has registered to run a Pro Tour leg –“ K100 Marrakech Pro” on 22<sup>nd</sup> May 2024.

**Botswana** has shown an interest for Associated Membership and we are processing this request.

**Rwanda** are also building a 2 tower cable and could join in the near future.

Other Associated members, **Ghana, Cameroon, Nigeria, Tunisia, Zimbabwe, Madagascar, Mauritius, Ivory Coast** will be given the option of better participation by encouraging a better fee structure.

Best in skiin'
