

EC Admincom - 2022 November - Report Secretary-General

I'll produce a more extensive report for the Congress, but for now, with all the reports coming in, all should be rather well informed of what is happening.

The COVID-19 situation getting mostly back to normal, all 2022 E&A Titled Events went on as planned. But on World level, there were still restrictions on travel and on entry into some countries.

I did attend the 2022 E&A Waterski Under-21 and Disabled Championships and the 2022 E&A Cableski Open and Age Categories Championships but missed out on the 2022 E&A Racing Championships which I intended to visit as well – but they got cancelled.

Two topics frequently came up when moving around : the cost of the doping tests and the low number of officials who put themselves forward for Titled Events. Topics we'll need to seriously address at our November Admincom meeting.

Besides that, the UKR/RUS/BLR situation caused a large number of emails from concerned athletes & officials – and from many others with their own ideas and suggestions.

The new EC Statutes (Articles of Association) got approved at our Monaco Congress and the necessary paperwork afterwards has also been concluded. A time consuming job, but now done ! And within the foreseen budget.

Besides that, the usual and the basic things kept happening :

A daily flood of mails.

Lots of requests for information.

Trying to assist the federations when having questions.

Drafting letters, guidelines, rules, agendas, meetings, ... whatever comes my way.

I will now start sending the Admincom some more documents.

When you get these documents and the reports, I gave them a number which corresponds with the Admincom agenda. By making a file according to these numbers, you can follow the meeting without having to search for the right document.

See you soon !
